5.7 - MUFFLER.....	149
5.8 - TOOLS...	151

Model History:

The small Honda FOUR was initially intended to be two models, a 250cc and 350cc model. In the end, it was judged that the performance of a 250 would be disappointing, due to internal friction losses that were beyond the technology of the time, so only the 350cc four was put into production. The CB350/4 proved a suitable entry level machine for the North American market and Europe. In spite of its entry-level focus, the CB350 was luxuriously finished with an upright riding position, four tilted-up silencers and chromium-plated mudguards. When first introduced, it attracted attention as the world's first four-cylinder production bike of such small capacity, but this curiosity never translated into market appeal and the CB350 was never a big seller. For 1975, Honda followed up this model with a CB400 Four, which featured a more sporty design that included a serpentine 4-into-1 exhaust header and a six-speed gear box.

1972/1973 - CB350 F0

The CB350 F0 model was available in two colors, Candy Bacchus Olive and Flake Matador Red. Tank stripes were white/orange. The side cover emblem, "350 Four", was painted red and white. Like the other single overhead cam bikes in 1972, the CB350F featured a 4 exhaust pipes and a 5 speed transmission.

1974 - CB350 F1

This model year was available in Glory Blue Black with gold tank stripes. The side cover emblem, "350 Four", was painted white and orange.

Model Info:

Model	Model Year	Frame #	Engine #
CB350 F0	1972/1973	CB350E-1000001	CB350F-1000001
CB350 F1	1974	CB350E-2000001	CB350F-2000001

Technical Specifications:

Tires	
Front	3.00x18in. Bridgestone (OEM)
Rear	3.50x18in. Bridgestone (OEM)
Brakes	
Front	10.25×1.5(x2)in.
Rear	6.3×1.2in.
Brake Swept area	67.8sq.in.
Specific Brake Loading	8.03lb/sqin
Engine Type	in-line four cylinder, SOHC
Bore and Stroke	1.85×1.97in.; 47x50mm
Piston Displacement	21.2cu.in.; 347cc
Compression Ratio	9.3:1
Carburetion	4; 20mm Keihin
Ignition	Battery and coil; breaker points
MPH/1000rpm, top gear	9.83
Fuel Capacity	3.2gal
Oil Capacity	3.2 pints
Lighting	12v, 156 watts
Battery	12v, 12ah

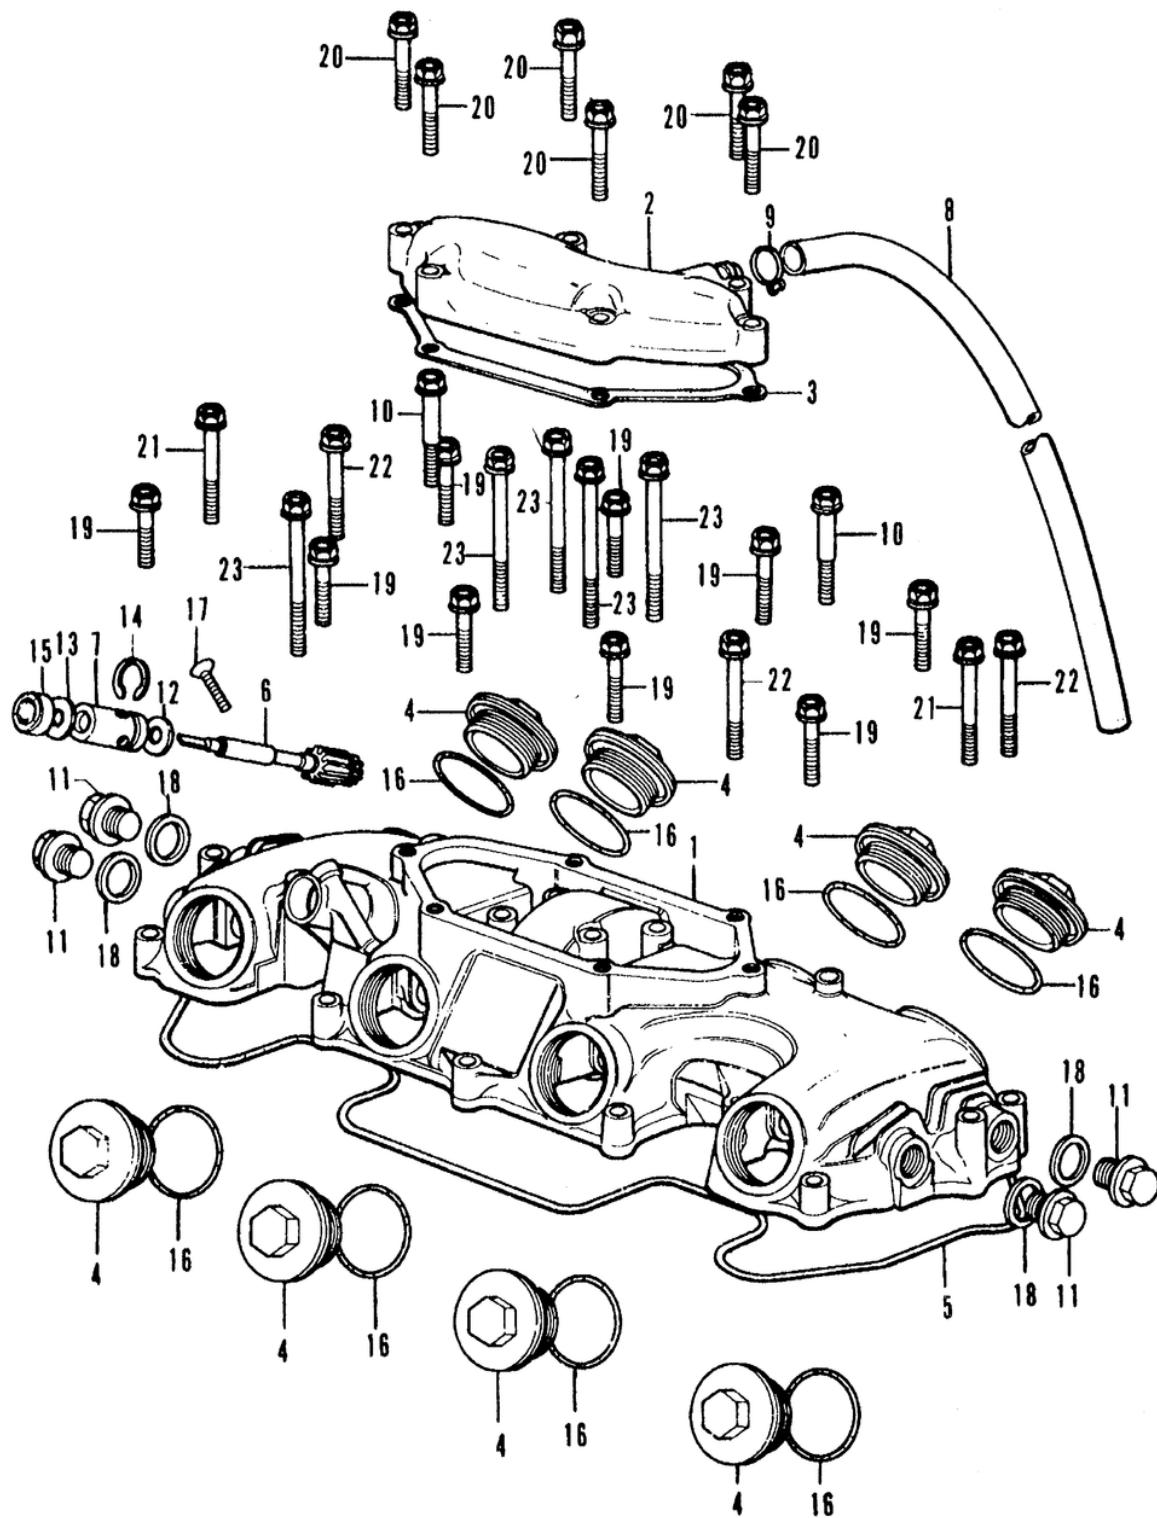

The Honda CB350 Four carries a transversely mounted four-cylinder engine featuring a chain-driven single overhead camshaft. Crankcases are clamshell type, split horizontally to allow easy assembly of the unit-construction gearbox and the five-plain bearing crankshaft. Primary drive is by chain, taken from the center of the crank to an inboard-mounted clutch. The 350 Four engine is under-square, meaning the 50mm stroke is longer than the 47mm diameter of the bore. At 47mm, each of the four pistons is not much larger than a medium-sized plastic pill canister you get from the pharmacy.
